SUMMARY

Computer Science student and **GSSoC '26 Contributor** with a **9.68 CGPA**. Expert in **AI-augmented development** using Cursor and Claude Code to build high-reliability, audit-logged systems. Specialized in **Spring Boot backend** and full-stack integration (React/Angular). Proven track record in optimizing legacy codebases and implementing complex business logic for regulated environments.

EDUCATION

- **Terna Engineering College** Navi Mumbai
B.Tech in Computer Science; CGPA: 9.68/10.0 (Ranked 2nd in Department) 2023 – Present
- **R.V. Nerurkar College** Mumbai
Higher Secondary (HSC); Percentage: 87.83% 2021 – 2023

TECHNICAL SKILLS

- **Languages:** Java (**Spring Boot**), Python, JavaScript (ES6+), SQL (PostgreSQL, MySQL)
- **Web Development:** Angular (**Fast-tracking**), React.js, Node.js, RESTful API Design, **RBAC**, JWT
- **AI Dev Tools:** Mastery of **Cursor**, **Claude Code**, **Agentic SDLC flows**, GitHub Copilot
- **Developer Tools:** Docker, Git, MongoDB Atlas, Postman, Playwright (Testing), Vercel
- **Core Concepts:** **Audit Logging**, ACID Compliance, System Design, Multi-threading, QA Testing

EXPERIENCE

- **Sapphire Infocom Pvt Ltd** Remote
Software Developer Intern – Oct2025-Dec2025
 - Audited and optimized **React/Node.js** apps, reducing API latency by **22%** and frontend load by **15%**.
 - Implemented secure **Role-Based Access Control (RBAC)** and audit-trail logic for B2B dashboards.
 - Leveraged AI tools to identify logic gaps and edge cases, ensuring production-ready reliability.

PROJECTS

- **FinSim (High-Reliability Simulator):** Developed a Java engine with **ACID-compliant** multi-threaded transaction logic. Built with a focus on data integrity and rigorous state management. [\[Live Link\]](#)
- **NIVARAN:** Created a multi-tier pipeline for document verification using **YOLOv11** and **NLP**, featuring automated escalation logic and severity-based alert triggers. [\[Live Link\]](#)
- **MediGo:** MERN-stack engine optimized for **sub-200ms retrieval** via MongoDB compound indexing. <https://medi-go-web-app-azdf.vercel.app/> [\[Live Link\]](#)

ACHIEVEMENTS & LEADERSHIP

- **LeetCode:** Solved **60+ problems**; Specialist in Arrays, DP, and Graph Algorithms (Logic-first mindset).
- **GirlScript Summer of Code (GSSoC) 2026:** Active contributor to Open Source AI and Web projects.
- **Department Rank Holder:** Secured **2nd Rank** in Computer Engineering among 100+ students.
- **Intrapreneurial Leadership:** Managed corporate outreach and budgets as **Sponsorship Lead**.

INTERESTS

- Medical Tech Trends, Technical Blogging on Deep Learning, and Table Tennis (Reflex Training).
